Date: August 05, 2024

To Whom It May Concern

This is to certify that Mr. Arslaan Asad has worked as Software Engineer at Strategic Systems International from July 04, 2022 to June 07, 2024.

As a Software Engineer at Strategic Systems International, his main responsibilities were:

- Designed and implemented RESTful APIs using Python and the Flask framework.
- Created efficient and scalable backend solutions, ensuring seamless communication between different services and systems.
- Worked as full-stack developer with Angular 15 frontend and .NET backend, on a large-scale application that was built on Microservices architecture.
- Optimized application code and database schema, alongside working on new application features.
- Worked with Elasticsearch for optimized searching across the application.

If you need further information, please feel free to write or call.

Sincerely,

Faisal Bhatti
